

Event Report

Treasure Hunt for First-Year Students

Date: 18th November 2024

Time: 3:00 PM – 4:30 PM

Venue: Various Laboratories in the Mechanical Engineering Department

The Mechanical Engineering Association (CIT) successfully organized a **Treasure Hunt** event for first-year students on the 18th of November 2024. The primary objective of this event was to introduce students to laboratory equipment and processes in an engaging and interactive manner.

Event Overview:

- **Participants:** 100 students divided into 10 teams, with each team consisting of 10 members.
- **Format:**
 - Teams were given a series of clues related to equipment used in various laboratories.
 - The clues directed the students to different laboratories, where seniors provided additional hints and explanations about the equipment.
 - Participating laboratories included:
 1. **Thermal Laboratory**
 2. **Central Workshop**
 3. **Welding Laboratory**
 4. **Dynamics Laboratory**
 5. **Molding Laboratory**
- **Activity:**
 - In each laboratory, seniors guided the teams by offering clues and educating them about the functionalities and processes involving the equipment.
 - This provided students with a hands-on learning experience while fostering team spirit and curiosity.

Outcomes:

- Students gained exposure to various laboratory environments and an understanding of core mechanical engineering processes.

- Enhanced interaction between seniors and first-year students, creating a welcoming and collaborative atmosphere.

The event was well-received by the participants and proved to be both educational and enjoyable.
